

## Kiwi Report by Finn

### Introduction

A kiwi is a bird 🦜 and it is very important to New Zealand 🇳🇵.

### Description

A kiwi has a long beak with tiny nostrils. Kiwis are fluffy but they are covered in feathers.

### Habitat

A kiwi lives in the forest 🌳 in New Zealand 🇳🇵. Their homes 🏠 are close to the ground. Their homes 🏠 are called burrows.

## Behaviour

Kiwis are endangered because kiwis have so many predators. Kiwis eat 🍲 worms and bugs.

## Conclusion

I think 🤔 kiwis are amazing. I hope I get to stroke one.
